

Volunteering at Lovedale

While the core of our programs are delivered through full time employees of Lovedale, there is ample opportunity to volunteer your time in specific projects that will aid teachers in school as well as provide support to the office staffs also.

We depend on Volunteers to provide exposure to the world for the Lovedale children, Skill training youth, Women support, environmental projects etc

Most importantly volunteers provide our beneficiaries with positive role models to aspire, that they lack so severely because of the backgrounds they come from.

Over the past two decades we have hosted national and international volunteers.

Our volunteers are medical professionals, students, mothers, retirees and employees especially from the IT industry.
